FROM: QD01/Safety and Mission Assurance Directorate

SUBJECT: Request for Cancellation of MWI 8715.4, "Personal Protective Equipment (PPE) and Systems"

In accordance with MPR 1410.2, 2.1.5, "Marshall Management Directives System," QD01 requests approval for cancellation of MWI 8715. 4, "Personal Protective Equipment (PPE) and Systems."

The annual S&MA review of MWIs revealed that this MWI is no longer needed. This MWI was originally developed as a method to provide instructions to Center employees to conduct Workplace Hazard Assessment and the types and uses of various PPE to comply with 29 CFR Part 1910 Subpart I, "Personal Protective Equipment."

The instructions for conducting a Workplace Hazard Assessment have been moved to MWI 8715.15, "Ground Operations Safety Assessment Program." The requirements for conducting a Workplace Hazard Assessment are contained in 29 CFR Part 1910.132(d). The requirements for the MSFC Fall Protection Program have been moved to MPR 8715.1, "Marshall Safety, Health and Environmental (SHE) Program," and are also contained in NPR 8715.3, "NASA General Safety Program Requirements," ANSI Z359.1, "Safety Requirements for Personal Fall Arrest Systems, Subsystems and Components," ANSI A10.32, "Fall Protection Systems for Construction and Demolition Operations," ANSI A1264.1, "Safety Requirements for Workplace Floor and Wall Opening, Stairs and Railing Systems," and 29 CFR Part 1926 Subpart M, "Fall Protection." The requirements for Emergency Showers/Eyewash Stations have been moved to MPR 8715.1, "Marshall Safety, Health and Environmental (SHE) Program," and are also contained in NPR 8715.3, "NASA General Safety Program Requirements," and ANSI Z358.1, "Emergency Eyewash and Shower Equipment."

Therefore, MWI 8715.4 is no longer required.
